The sale will continue daily from 10 a.m. to 4 p.m., will continue daily from 10 a.m. to 4 p.m., until all pieces have been offered, and about the same number of squares will be called each day. Today's sale was attended by about twenty persons, and among them was Mr. C. H. Wiltsie of Rochester. New York, who has attended such sales for the past two or three years, and has been the largest single investor. The law provides that when a piece of property is sold at such a sale, the purchaser shall be entitled to interest at the rate of fifteen per cent per annum, and to a deed therefor from the District at the end of two years unless the property shall have been sooner

NUMEROUS CANDIDATES.

Men Who Want to Serve as Policemen at Crossings.

"Not a day passes," remarked District Commissioner Ross, who has immediate charge of the police department, to a reporter of The Star today, "without the personal application to the Commissioners of a candidate for appointment as street railway crossing policeman, or of his friends in his interest. Nearly one thousand applications are on file. Vacancies occur very rarely, seldom more than three or four times a year. It can readily be seen, therefore, that no matter how desirous the Commissioners may be to recognize the many worthy candidates and their influential friends, such recognition, to any considerable extent, is practically impossible.

"There is, however, a pressing need for eligibles for the regular force. Men between twenty-two and thirty-five years of age, not less than 5 feet 8 inches in height, weighing not less than 145 pounds, who have resided two years in the District, who can pass the physical and civil service examinations, and who are not addicted to the use of intoxicants, are wanted. I would urge the candidates for the crossings force, and all sturdy, intelligent young men with the qualifications I have named, to apply to Mr. Kemp, chief clerk of the police depart-ment, for the application blanks for appointment on the regular force of the de-

partment."

It is understood that men for the police force are needed now, and the 1st of July it is expected that at least fifty men will be appointed. The new men will, of course, be made members of class one, the salary of a member of that class being \$900 per

REMARKABLE SUCCESS

OF A NEW CATARRH CURE. A large and constantly increasing majority of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formerly the name catarrh was catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal pasages.

In fact, wherever there is mucous membran-

there is a feeding ground for catarrh. The usual remedies, inhalers, sprays, douches or powders, have been practically failures, as far as anything more than temporary relief was con-cerned, because they simply dry up the mucous se-cretions, without having the remotest effect upon

the blood and liver, which are the real sources of catarrhal diseases. It has been known for some years that the radical cure of catarrh could never come from local applications, but from an internal remedy, acting

on the blood and expelling the catarrhal polsoi from the system. A new internal preparation, which has been on the market only a short time, has met with re-markable success as a genuine, radical cure for

catarrh. It may be found in any drug store, sold under the name of Stuart's Catarrh Tablets, large, pleasant-tasting lozenges, composed principally of antiseptic ingredients, Eucalyptol Guaiacol, Sanguinaria, Hydrastin and similar catarrh specifics.
Dr. Ainslee, in speaking of the new catarrh cure, Dr. Ainslee, in speaking of the new catarrh cure, says: "I have tried the new catarrh remedy, Stuart's Catarrh Tablets, upon thirty or forty patients with remarkably satisfactory results. They clear the head and throat more effectually and lastingly than any doache or inhaler that I have ever seen, and although they are what is called a patent medicine and sold by druggists, I do not hesitate to recommend them, as I know them to be free from cocaine and oplates, and that even a little child may use them with entire safety."

Any sufferer from nasal catarrh, throat or home

MAYOR'S OPINION OF CONSERVA-TIVES' INTEREST IN CITY AFFAIRS.

Regards It as Healthy Indication-Names of Nominees to Be Made Public Tonight.

> Evening Star Bureau, No. 701 King St., Bell Telephone No. 106, ALEXANDRIA, Va., April 9, 1901.

Commenting this morning on the action of the Citizens' Progressive Association in naming candidates for the city council, Mayor Simpson said he regarded as a healthy sign the fact that so many conservative business men were showing a marked interest in the political welfare of the city. He cited several instances where prominent business men, who heretofore had been apparently indifferent with regard to local political affairs, had lately showed great activity in the movement to secure municipal improvements. Mayor Simpson said he was glad to see the conservative element becoming aroused and declared that it was just in line with the advice he had given the community on the occa-sion of his second induction into the office of mayor.

A public meeting will be held this evening at 8 o'clock in Sarepta Hall, under the auspices of the Citizens' Progressive Association. The committee of twenty which was appointed to select candidates for each of the four wards will submit its report for ratification. At a meting held last night this committee made selections, but the names of those decided upon will be with names of those decided upon will be with-held until this evening.

Fredericksburg College nine by a score of

to 6. The batting of Campbell and the fielding of Davis for the High School were features. For Fredericksburg College Moseley pitched a good game, and the fielding of Goolrick deserved mention.
